

Oconomowoc for Safe Technology for You, Your Family, and our Future

We're not against technology. We stand for safe technology. Protect the ones you love. This fall, you are invited to learn about wireless technology and how it effects our health and wellbeing, practical solutions, and more. **There is no charge for these info sessions**, they are a public service.

ALL INFO SESSIONS will be held at the Oconomowoc Public Library

200 West South Street, Oconomowoc, WI

This is not an Oconomowoc Public Library sponsored event.

Exclusive showing of the film GENERATION ZAPPED

This award-winning film provides an overview of wireless technology (5G, cellphones, smart meters, WiFi) and the scientific and medical research about its effect on the health of both adults and children.

Morning Session - **Friday, September 28 at 9:30 am**

5G Wireless Tech - Do you know the dangers of being bombarded 24/7 with radiation?

5G wireless technology requires a dense network of small cell tower transmitters placed on lamp posts or in the front yards of every 2 to 10 homes and on every block of business districts, all across America, for things like smart appliances, driverless cars, and robots. Every one of these small cell tower transmitters will emit radiation (RF's) 24/7 into our homes, yards, lakes, rivers and streams. Do we have a vote in this matter? What are our rights? What are the safe alternatives to wireless radiation 24/7?

Morning Session - **Monday, October 1 at 9:30 am** or

Evening Session - **Wednesday, October 3 at 6:30 pm**
